

2x2 Ceiling IP Speaker (Primary)

Model No: WL-SPKR-22-INF

Description

The 2x2 IP Ceiling Speaker for InformaCast® supports dual registration with InformaCast and SIP.

This low-cost, high-quality wall speaker can function as a 2-way intercom and receive broadcast announcements via Singlewire's InformaCast System, all from a single IP speaker.

The Wahsega 2x2 Ceiling IP Speaker works with standard call buttons or the Wahsega IP Call Button. An optional room microphone kit or sound reinforcement panel allows users to play audio from a local source such as a computer or smartphone. Incoming broadcasts and calls mute the local audio, making sure users never miss an alert or announcement.

The Wahsega 2x2 Ceiling Speaker also has the ability to drive a second, independent and lower-cost Wahsega speaker up to 20 meters away via Cat5e or Cat6 cable.

Key Features

- Able to drive second Wahsega classroom speaker up to 20m away via Cat5e or Cat6
- PoE 802.3af enabled (Power-over-Ethernet)
- Industry-leading low standby power
- Fully configurable via InformaCast
- QR code label for easy MAC address ID
- Simple 2x2 grid lay-in ceiling installation
- Standard earthquake tabs for stability
- Integrated status LED
- Integrated microphone
- Two onboard relays for door control
- Compatible with standard call buttons
- Advanced call button functionality to reduce false alarms
- Web-based mic and speaker volume control
- RJ45 connections for simplified installation of second speaker, microphone kit or sound reinforcement panel
